

Who will be driving your business transition?

HAVE YOU EVER HEARD OF A WINNING RACER WHO LETS ONE OF THEIR PIT CREW DRIVE THE FINAL LAPS?

IT NEVER HAPPENS...

Why then do business owners, with the finish line in sight after years of driving business success, hand over the wheel?

DO YOU WANT TO KEEP DRIVING?

There are two ways to transition your business: you steer, or someone else steers.

When (not if) transition happens, will you be OK letting someone else drive?

Do you think you will find the back seat comfortable?

WE WANT YOU TO KEEP DRIVING!

You know you want to drive; it's your nature, it's who you are. We are two respected, established and highly successful advisory and support organizations and we are hosting a small, invitation-only educational seminar for baby boomer business owners. We will equip you with the clarity, confidence, capabilities and tools you will need to be the driver during business transition. Even if you plan to sell to the next generation, attend the seminar and ensure your transition is a winner.

The Charcoal Steak House

2980 King Street East, (at Fairway Rd.)
